

### Curriculum intent psychology

The purpose of our Psychology curriculum is to secure strong academic outcomes. We are committed to ensuring all pupils have high aspirations while providing support and provision to ensure all can succeed. We want students to develop a real passion for learning about human thought and behaviour through the variety of diverse and thought-provoking topics we study. Students will learn about how psychology is used in society and the wider applications and implications of the subject. Students will learn to describe and assess existing theories and research. They will also develop practical research skills to enable them to plan, conduct and collect data. Students will develop
